## Personal Statement

A highly motivated, meticulous Full Stack Software Developer and Data Analyst. I am seeking a position as a Software Engineer Intern to challenge myself, utilize my ability to learn fast and improve as a professional. I am passionate about technology and creating reliable systems that provide the best customer experience.

---

## Highlighted Software Applications

NBA Data - Full Stack Software Developer

March 2023 - Present

URL: [NBA Data](#)

A data visualization project built using the Django framework that fetches data from nba\_api endpoints.

- I implemented React as the frontend framework and data visualization tools like D3.js to process the data.
- The live site is deployed to Render.

SMS Data - Full Stack Software Developer

January 2022

URL: [SMS Data](#)

An API in Flask and SQLAlchemy that can:

- receive SMS data per user and process the data as a registered transaction.
- classify transactions into groups using predefined categories.
- query the API for various information. An example would be 'total transactions per category per specific period'.

FinPro - Full Stack Software Developer

November 2018

URL: App - [FinPro](#)

Bank - [FinBank](#)

A Django web application allowing users to manage their finances, budget, track and automate recurring expenses, with account balances reflected from a bank simulation.

- I implemented functionalities for api generation on the bank simulation to reflect the user's balance in the budgeting application and created an interface where users can key in expenses to a particular account and create dummy accounts to budget for expenses.
- I implemented PostgreSQL as the database and deployed live sites to Heroku.

---

## Technical Skills

Strong: Python, Django, Flask, SQL, PostgreSQL, JavaScript, HTML, CSS

Experienced: Node.js, React, Angular, p5.js, D3.js, Tableau

---

## Personal Skills

- Self-motivated and self-driven.
  - I embrace a growth mentality. I thrive on challenges and enjoy stretching my abilities in order to be better.
  - Critical thinker and detail oriented.
-
